

# Youth Strategic Action Plan 2025

## COMMISSIONER'S INTENT

*Reduce the number of young people engaging in anti-social behaviour, criminal offending and coming into contact with the criminal justice system.*

- Develop, establish, and maintain youth policing strategies that are flexible, agile and adaptable.
- Maintain a tiered approach to policing youth, ranging from prevention, diversion, and early intervention; through to appropriate disruption and response of criminal behaviour where appropriate to ensure community safety.
- Work with partner agencies to develop and deliver meaningful programs aimed at identifying and supporting at risk youth and encouraging their participation in diversion programs – always noting the role of police and primacy of other appropriate agencies in youth justice matters.

## CORPORATE SPONSOR MESSAGE

*The NSW Police Force is committed to prevention, intervention and partnerships and recognises the importance of working with the community to reduce violence, crime, and fear. The vision for the NSW Police Force emphasises a commitment to the Next Generation by contributing to the lives of young people. This includes providing them with opportunities and tools to enhance their safety and wellbeing, as well as fostering healthy and positive life-choices, minimising their contact with the criminal justice system.*

*The approach we take to contend with the issues that impact our youth must include strategies that are sufficiently flexible, agile, and adaptable to ensure they are able to be applied to a range of circumstances and the individuals involved. The NSWPF will adopt a tiered approach and include initiatives ranging from prevention focused educational programs through to proactive and compliance based policing initiatives. Encompassing a range of strategies that are both responsive and adaptable, the tiered model ensures we are able to effectively address the shifting challenges of youth offending in balance with the need to ensure community safety.*

*With an emphasis on prevention and early intervention, we will work with partner agencies to develop and deliver meaningful programs aimed at identifying and supporting at-risk youth and encouraging their engagement with diversionary platforms. Through these programs we will work to decrease youth involvement in anti-social and criminal behaviour and build resilience and knowledge to reduce the likelihood of young people becoming victims of crime. We will continue to build effective, meaningful relationships with partner agencies and the community to generate better outcomes for at-risk youth and reduce crime committed by and against young people. Disruption and consequence-based policing response strategies will also be deployed where needed, to ensure young offenders are dealt with appropriately and community safety is maintained.*

*The Corporate Sponsor for Youth and the Youth Command play a critical role in the development and delivery of the programs and policies that underpin this portfolio. The collaboration and support provided to the field is pivotal to our success and allows us to tailor the NSW Police Force crime prevention approach and measures we take to address youth-related crime and anti-social behaviour. To ensure we future proof our capacity to respond effectively, I expect all Region Sponsors to champion the Youth Strategy including its initiatives to improve knowledge, skills, and expertise in conjunction with technological enhancements which will better inform our approach to policing our next generation.*
